REASONS FOR ALLOWANCE

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites the combination of a one-way clutch apparatus comprising an inner race, an outer race, a plurality of cam surfaces, a cylindrical surface, a plurality of torque transmitting members, biasing means, block bearings with a tapered shape, a retainer, a retaining portion, bearing retaining pieces, and latching portion. Of particular patentable significance is the tapered-shape expanding towards the cylindrical surface and the bearing retaining pieces along *both* end surfaces of the block bearing in combination with the rest of the elements. The resulting combination is not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kinoshita et al. ('085, '296, '227), Awaji et al. ('521), and Muramatsu ('945) disclose other one-way clutch devices comprising block bearings.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Saúl J. Rodríguez whose telephone number is (703) 308-7575. The examiner can normally be reached on M-F 9:30-6:00.
